PISTON CUPS

All Piston Cups are Solid with a center pinhole, except as noted.

PARKER THINWALL/STANDARD MOLYTHANE PISTON CUPS

Thinwall piston cups are especially suitable where low friction is required at light pressures.

Molythane provides excellent abrasion resistance under extreme conditions-to 10,000 PSI or rough cylinder bore.

Standard Fab/Rub Piston Cups (No Hole) 2500 PSI

U-RING SEALS

The **Standard Uring** seal is square in cross section and is the most widely used Uring. It is directly interchangeable with V-Packings; U-Packings; and most O-Rings, in single-acting applications of 1/8" cross section and larger, as well as in double-acting applications using two seals. Deep Uring incorporates the same unique design plus added length to withstand rugged, high shock heavy duty applications.

NON-LOADED U-SEALS

G29

Rod U-Seals

The latest innovation in rod seal designs. This U-Seal is specifically engineered to seal on its inside diameter. It was developed to attain maximum life and reliability in rod sealing.

Piston U-Seals

The latest development in specialty piston seals. This U-Seal is specifically designed to seal on its outside diameter. It was developed to extend serviceability and improve reliability in piston sealing.

Symmetrical U-Seal

This U-Seal can be used interchangeably for either rod or piston sealing.

Almost all of these U-Seals are greater in depth than in cross section, and may fit in one backup or two backup O-Ring groove, but not in the no backup O-ring grooves. U-Seals are made of a superior blend of urethane to provide maximum service life and performance

O-RING MEASURING TAPE

Use this handy tape to measure the size of your O-Rings. Measures metric o-rings from 70mm to 254 mm on one side and standard o-rings from 3-1/8" to 10" on the other side.

Part Number:850340 **Price Per Piece:**
ORMMT ORING **\$79.86**

BRASS O-RING TOOL KIT

Kit consists of two tools designed specifically for removal & replacement of all types of O-Rings. Each tool is made of solid brass to minimize the danger of damaging the O-Ring groove or the metal parts near the seal. Tools come in a handy plastic pocket case.

Part Number:849893 **Price Per Piece:**
ORNG TOOL **\$22.92**

ROD INSTALLATION TOOL
